GLOBAL STANDARD IN FINANCIAL ENGINEERING

Mathematics for Quantitative Finance:

The Maths Primer is 12 hours of recordings covering all the mathematical preliminaries you need to know before commencing the CQF lectures. The Primer has been designed to give delegates the opportunity to refresh their math skills before the start of the CQF.

Pre Course Maths Test:

In addition to your application, you will need to complete the CQF Admissions Test. A copy of this test can be found in your CQF portal under the Maths Primer materials. There is no pass or fail for the test and this is used as a Learning tool for both delegates and tutors.

You are required to complete the CQF Admissions Test prior to commencement of the CQF program, however, you are welcome to delay handing in the test until after you have reviewed the Maths Primer recordings. Please return your completed test to Elise Goss (Elise.Goss@fitchlearning.com)

Please note: Online Access to the CQF cannot be granted with the Admissions Test being completed. Delegates will not be able to start the CQF without the test being submitted. If you have any technical questions about the course content or the CQF Admissions Test, please contact Riaz Ahmad (Riaz.Ahmad@fitchlearning.com) directly.
